Dear Mr. Velasquez,

On June 22, 2006 Procurement Desktop 4.3.7 successfully completed the certification process to integrate with FPDS-NG version 1.2. All certifications areas where met to include:

- Appropriate System Architecture
- Appropriate Integration Points
- Interoperability
- Interface Stability

The following cases were verified prior to certification:

- No dual sign-on is required for the user

- All data changed in the contract writing system is reflected in FPDS-NG

- The contract writing system releases or approves a contract and the data in FPDS-NG is approved real time

- All contract data contained in the department/agency/contracting office system is passed to FPDS-NG, not requiring the user to enter data again.

- The correct Web service is called in FPDS-NG.

- Error handling is sufficient allowing the user to easily correct the data

If you have any questions, please let me know.

Sincerely,

Nancy Gunsauls

FPDS-NG Project Manager
